## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-26, drawn to polymerization process, classified in class 526, subclass 68.
  - II. Claims 27-30, drawn to a removal device, classified in class 210, subclass 502.1.

Inventions II and I are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the removal device could be used to remove contaminants in flow processes other than those which include polymerization.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Ms. Paige Schmidt on 6/3/2005, a provisional election was made with traverse to prosecute the invention of group I, claims 1-26. Affirmation of this election must be made by applicant in replying to this Office

Art Unit: 1713

action. Claims 27-30 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

#### ***Information Disclosure Statement***

2. The information disclosure statement filed 1/26/04 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but reference CH 425 733 has not been considered.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1713

4. Claims 1-20 and 22-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 (and claims 2-4 and 7-20 by dependency) are indefinite because although the third stream is stated to include polyolefin made by contacting the second stream with catalyst, no olefin is indicated as being present either of the first or second streams, and therefore the process is not clearly understood.

Claim 1 (and claims 2-20 by dependency) are indefinite because it cannot be determined whether the third stream corresponds to the stream with olefin or the stream from which olefin has been separated.

Claim 22 (and claims 23 and 25 by dependency) are indefinite because it cannot be determined whether “an amount greater than 5 ppm” and “an amount less than 1 ppm” corresponds to 5 ppm or 1 ppm each of alcohols and organohalides, or 5 ppm or 1 ppm of alcohols and organohalides combined.

Claim 24 is indefinite because it cannot be determined whether “an amount greater than 10 ppm” corresponds to 10 ppm each of alcohols and organohalides, or 10 ppm of alcohols and organohalides combined.

Claim 26 is indefinite because it cannot be determined whether “an amount of 1 ppm or less” corresponds to 1 ppm each of alcohols and organohalides, or 10 ppm of alcohols and organohalides combined.

5. Claim 21 is allowed.
